PROFILE

A Full Stack Developer with expertise in the PERN stack, specializing in scalable, high-performance web applications. Proficient in frontend and backend technologies, including React.js, Angular, Node.js, Express.js, MongoDB, and PostgreSQL. Hands-on experience in UI/UX design, creating user-centered interfaces. Skilled in transforming business requirements into effective solutions and enhancing user experiences with data-driven insights. Collaborative, detail-oriented, and committed to delivering efficient web solutions.

EMPLOYMENT HISTORY

May 2023 — Present

Junior Technology Innovator – R&D | Full Stack Developer, Ciber Digita Consultants LLP

Thiruvananthapuram

- **Cybersecurity Tool Development:** Contributed to the development of a next-generation cybersecurity platform integrating SIEM, SOAR and augmented EDR/XDR/MDR solutions. Focused on feature implementation, bug fixing, and enhancing functionality to improve efficiency and reduce SOC delivery costs.
- **AI Project Development:** Worked on the backend and frontend of an AI-powered platform for generating articles tailored to client requirements, applying expertise in full-stack development for scalable and efficient solutions.

Technical Expertise: Experienced in developing full-stack web applications using the PERN stack (PostgreSQL, Express.js, React.js, Node.js). Skilled in frontend development with React.js and CSS frameworks like React-Bootstrap, Ant Design, and Material UI, and proficient in state management with Redux and Redux-Saga. Experienced in fetching data via RESTful APIs, AJAX, Fetch API, and Axios with Promises and async/await. Strong backend expertise with Node.js, Express.js, and PostgreSQL, with a focus on creating scalable, modern web applications. Knowledgeable in Docker, ECMAScript, JSON, and user-centered design principles. Skilled in Git version control, debugging with Chrome DevTools, and managing dependencies with NPM/Yarn.

Mar 2023 — Apr 2023

Cyber Security Research and Development Intern, Ciber Digita- Consultants LLP

Developed skills in HTML5, CSS3, and JavaScript (ES6+) with expertise in ReactJS and CSS frameworks like React-Bootstrap for responsive interfaces. Proficient in Redux for state management, PostgreSQL for database handling, and Axios with RESTful APIs for asynchronous operations. Experienced in back-end development using ExpressJS and NodeJS.

Jan 2023 — Feb 2023

Intern, TCS iON

Developed a dynamic Content Management System (CMS) for a blog using the MEAN stack, implementing multiple user flows with role-based access control for root users, authenticated users, and admins.

SKILLS

HTML5

CSS3

Javascript (ES6+)

React.js

Angular

Node.js

Express.js

PostgreSQL

MongoDB

UI Libraries: Material-UI, Ant-
Design, Bootstrap

Redux-saga

API Integration

HTTP & Authentication
Methods

Package Management &
Bundling
