PROFILE

A user-focused Front-End Developer skilled in transforming business requirements into impactful solutions. Proficient in building responsive interfaces with React.js and Angular, turning requirements into functional specs. As a Junior Technology Innovator, brings fresh ideas, supports prototyping, and enhances user experience with data insights. Strong in front-end technologies & hands-on backend experience. Collaborative, creative, and committed to staying updated on front-end trends to deliver high-impact solutions.

EMPLOYMENT HISTORY

May 2023 — Present

Junior Technology Innovator – R&D, Ciber Digita Consultants LLP

Thiruvananthapuram

Hands-on experience in ReactJS, utilizing CSS frameworks like React-Bootstrap, Ant Design, and Material UI for creating responsive and engaging user interfaces. Skilled in managing application state with Redux and Redux-saga, with a strong foundation in HTML5, CSS3, Flexbox, and Grid layout for structuring and styling web content. JavaScript expertise includes ES6+ syntax, DOM manipulation, and event handling, complemented by familiarity with Sass for efficient styling. Experienced in responsive design, using frameworks and media queries to ensure accessibility across devices.

Additionally, proficient in using Git for version control, and skilled in debugging and performance monitoring with Chrome DevTools. Asynchronous data fetching is handled with RESTful APIs, AJAX, Fetch API, and Axios, leveraging Promises and async/await for complex data flows. Project dependencies are managed with NPM/Yarn, with a solid grasp of design principles and user-centered design. Experience in backend technologies such as PostgreSQL, ExpressJS, and NodeJS. Familiarity with Docker, JSON, and ECMAScript supports scalable, modern web development.

Mar 2023 — Apr 2023

Cyber Security Research and Development Intern, Ciber Digita Consultants LLP

Developed skills in foundational web technologies like HTML, CSS, and JavaScript, building a solid base for front-end development. Gained hands-on experience in ReactJS, using CSS frameworks like React-Bootstrap to create responsive interfaces, and applied state management techniques with Redux for more complex applications. Worked with PostgreSQL to manage databases and used Axios for handling asynchronous data requests. Additionally, developed server-side skills with ExpressJS and NodeJS, enabling the creation of efficient back-end solutions.

Jan 2023 — Feb 2023

Intern, TCS iON

Worked on a project TCSiON RIO-125 Content Management system. Developed a dynamic content management platform for a blog using the MEAN stack (MongoDB, Express.js, Angular, Node.js). The objective of the project was to build a CMS that supports multiple user flows, including a root user flow, an authenticated user flow, and an admin user flow, each with different levels of access and functionality.

SKILLS

HTML5 & CSS3

JavaScript (ES6+)

React.js

Redux/Redux-saga

UI Libraries: Material-UI, Ant Design, Bootstrap

Responsive Design

Performance Optimization

Version Control & Development Tools

Build & Deployment

API Integration

Node.js

Express.js

PostgreSQL (Database)

COURSES

Jul 2022 — Dec 2022	Certified Specialist in Full Stack Development, ICT Academy of Kerala, TVM	
---------------------	--	--

EDUCATION

Aug 2017 — Jul 2021	B-Tech, Mohandas College of Engineering	Thiruvananthapuram
	Graduated with a cumulative GPA of 8.64	

LANGUAGES

English	Hindi
Malayalam
